

# The Musician's Guide to Rhythm

## Book Writeup

Something new in the world of music education, The Musician's Guide to Rhythm is a practical handbook for all instrumentalists, vocalists, composers, and teachers. MGR introduces basic and complex rhythmic concepts clearly and progressively, and provides extensive hands-on exercises for immediate results. With a focus on melody and improvisation, MGR expands rhythmic skills and creativity for players of all instruments. With a broad range encompassing jazz and classical, rock and blues, Cuban and Brazilian and other world styles, MGR leads musicians to increased confidence and expressivity.
